S.M.D.DANUSHKA WICKRAMASINGHE

UI/UX DESIGNER

Email : dilandanushka345@gmail.com | phone : +94 763 659 342 | Location : Veyangoda,Srilanka

Portfolio : danushkawickramasinghe.com | Linkedin : Danushka Wickramasinghe | LinkedIn

PROFESSIONAL SUMMARY

Results-driven **UI/UX Designer** with **1 year of experience** designing and improving web and mobile applications. Skilled in user research, wireframing, UI design, prototyping, and design systems. Proficient in **Figma, HTML, CSS, JavaScript, and Next.js,** bridging design and development to deliver responsive, user-centered interfaces. Passionate about creating intuitive, accessible, and visually engaging digital experiences that support business goals.

WORK EXPERIENCE

SenzMate IoT Intelligence Pvt Ltd. Aug 2025 – Aug 2026

Worked on multiple key products including **DevicePulse**, **SenzAgro**, **Polar**, and **TripPlanner.ai**, contributing to end-to-end **product design** and **development**. Responsible for conducting **user research**, **improving UX flows**, and **designing intuitive UI solutions** to enhance usability and product efficiency. Collaborated closely with development teams to ensure smooth implementation, and actively participated in testing and iterative improvements to deliver user-centered digital experiences.

Carlos Embellishers pvt ltd. Nov 2021 - Nov 2022

Conducted manual audits of company processes, ensuring compliance and identifying areas for improvement.

PROJECTS

Rebuild-Lanka Ongoing

Currently developing a platform for **post-crisis recovery and community** rebuilding in Sri Lanka. Responsible for **full-stack development**, including **frontend**, **backend**, and **responsive UI**. Building core features such as **project listings**, **volunteer coordination**, and **resource management** while improving performance, scalability, and user experience.

AJ Salon Website & Web Application V.1 Apr 2026 – Jun 2026

Developed a fully functional **salon website** and **web application** from scratch, handling both **front-end** and **back-end development**. Built responsive user interfaces and implemented core features including **online appointment booking**, **service listings**, and **admin management system**. Ensured smooth data flow between frontend and backend, focusing on performance, usability, and reliability. Worked on **API integration**, **database structure**, and deployment of the application.

Eventstune.lk - Entertainment Booking Website May 2025 – Jun 2025

Developed a sleek **entertainment booking platform** for **artists**, **dance groups**, and **musical bands**. Built using **HTML**, **CSS**, **JavaScript**, and **PHP** with a focus on user-friendly design and smooth booking flow

Apparel Printing Management System for Carlos Embellishers Dec 2023 – May 2024

Focused on project handling by developing full design diagrams, data tables, and intuitive UI interfaces. Designed a seamless user experience for managing apparel printing orders and operations using Figma.
